

Friday 15th January

Today we are learning to write persuasively about saving the Javan rhinos.

Can you remember some of the facts that  
you learnt yesterday?

Remember to use your poster to help you!

## Javan Rhino Facts!

Javan rhinos are critically endangered.  
This means they are very rare because  
there are only around sixty left.

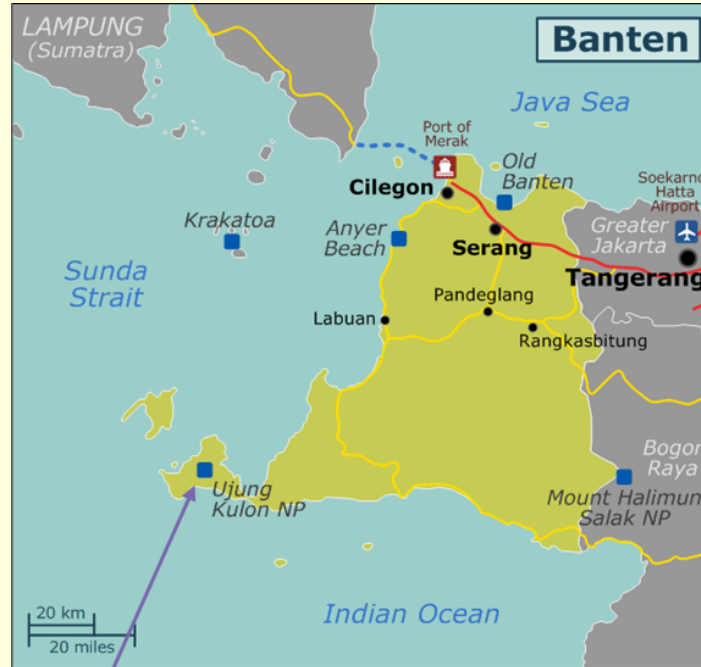

They are between 1.4m and 1.7m tall  
and weight between 900kg and  
2,300kg!

Javan rhinos live between thirty five to forty years in their habitat, this is in the tropical rainforest.

Can you remember where every Javan  
rhino lives?

Ujing Kulon National Park.

They live in a special place called Ujing  
Kulon National Park in Indonesia.

Javan rhinos have dusky grey skins that looks black when its wet!

They are herbivores, which means they eat leaves and plants.

Javan rhinos only have one horn on the front of their head.

But they don't like to use this horn to fight, they are more likely to run away than cause a fight!

They have a pointed upper lip to help them to grab their food.

But these rhinos need our help!

They are thought to be the rarest large mammal on earth.

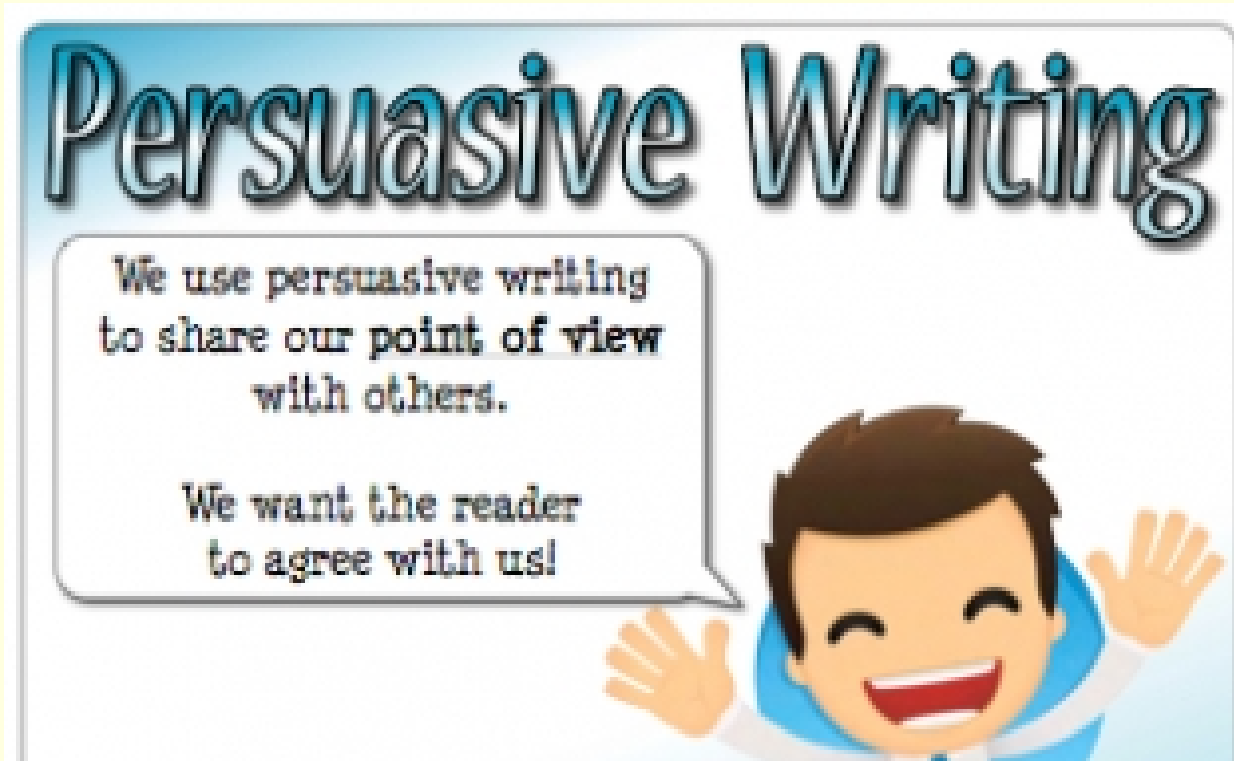

In the past, they were hunted for their horns.

Their homes have also been destroyed because large areas of the tropical rainforests have been cut down.

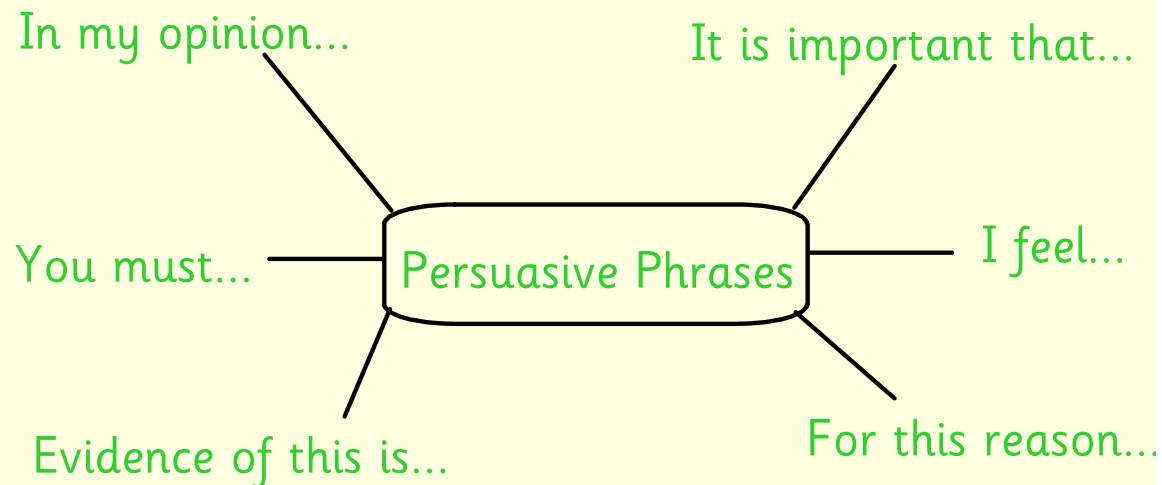

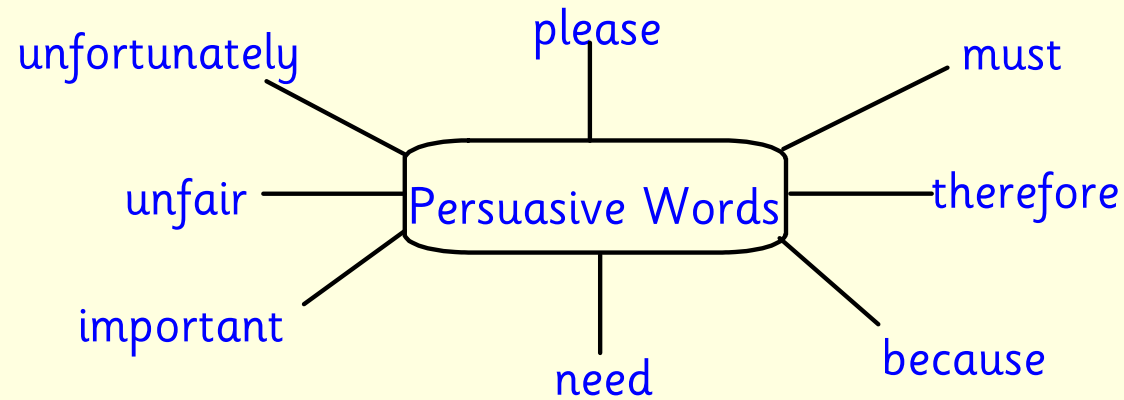

With only sixty Javan rhinos left, if we don't protect them, they will disappear forever (become extinct).

Today we are going to do some persuasive writing.

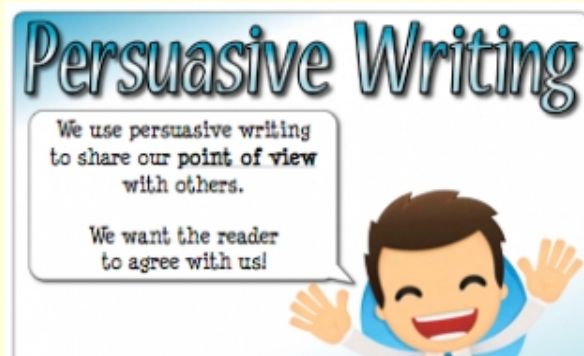

When writing persuasively, we are trying to convince the reader of our opinion.

We can use persuasive words and phrases to encourage people to listen to what you are saying.

Your job today is to write a persuasive piece of writing to help save the rhinos.

Think about what facts you can use and how you can use persuasive language to convince the reader to help.

Can you read the letter on the next page and see if you can find any persuasive language?

## Friday 15th January

Javan rhinos are beautiful mammals with majestic horns. Their bodies are covered in tough skin that protects them. They are on the endangered list.

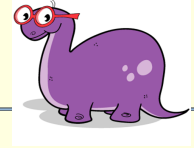

Unfortunately, there are only sixty left! It is important that we do something to help!

Their houses have been destroyed, this is so unfair. Therefore, we must work together to stop this wonderful species from becoming extinct. Please help!

Can you spot the persuasive language here?

# Friday 15th January

Please help us to save the rhinos!

Rhinos are beautiful grey mammals who live in the rainforest in Java.

# Friday 15th January

Please help us to save the rhinos!

Rhinos are beautiful grey mammals who live in the rainforest in Java.

There are only 60 Javan rhinos left in the world and it is important that we help them.
