

Monday 1st March PSHE Task

Resolving Conflict

We have previously been looking at friendships and what we think makes a good friend. Today we are going to look at what happens when problems arise in friendships.

Watch the YouTube clip linked. <https://www.youtube.com/watch?v=basofea2UEs>

While you are watching, think about whether each person is being a good friend and is being considerate and understanding. What are they doing wrong?

Task 1:

What does donkey do wrong?

What does Shrek do wrong?

Task 2:

Something we have to learn to do as we get older is to be able to **mediate**. We need to be able to see things from the other persons point of view and meet in the middle.

Have a look at the BBC Bitesize video linked. <https://www.bbc.co.uk/bitesize/clips/zhypyrd>

Mediation is one way of resolving conflict in friendships. Can you think of any other ways to help sort out problems that arise? What might you do if an argument or problem breaks out at school? Ask a grown up to help you discuss.

Stay calm and think carefully before speaking.
